EDUCATION

B.Tech – Computer Science & Design 2023 – 2027
SVIET, Chandigarh
CGPA: **8.5 / 10**

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Machine Learning, Artificial Intelligence, Data Analytics & Visualization

Intermediate (XII) 2020 – 2022
Jharkhand Academic Council
Percentage: **86.80%**

Matriculation (X) 2018 – 2020
Jharkhand Academic Council
Percentage: **86.80%**

TECHNICAL SKILLS

- **Programming & Core:** Python, JavaScript, C++, Java, SQL
- **Data Science & Machine Learning:** Pandas, NumPy, Scikit-learn, Exploratory Data Analysis (EDA), Statistical Analysis, Feature Engineering
- **Generative AI & NLP:** OpenAI APIs, LLM-based Applications, Prompt Engineering, Text Processing, NLP Pipelines
- **Data Visualization & BI:** Matplotlib, Seaborn, Excel, Power BI, Dashboards
- **Backend Development & APIs:** FastAPI, Flask, Node.js, Express.js, REST API Development, Microservices Architecture
- **Databases & Data Management:** MongoDB, MySQL, PostgreSQL, Supabase
- **Real-time & Data Systems:** Streaming Analytics, Real-time Pipelines, Live Data Visualization
- **Developer Tools:** Git, GitHub, Postman, Jupyter Notebook
- **Software Engineering:** Full Stack Development, System Design, API Design
- **UI/UX Design:** Wireframing, Prototyping, User Experience Principles

ACHIEVEMENTS & TRAINING

- **35th Rank** – CodeCrafters Challenge 2025 (5,000+ participants nationwide)
- **NASA ARSET Trainee** – Satellite Laser Altimetry (ICESat-2)
- **IIRS–ISRO Trainee** – Remote Sensing & Image Analysis
- **Research Intern - IIT Roorkee**
- **SSB Interview Candidate (TES Entry – Indian Navy)** – Selected for officer-level assessment at SSB Kolkata (Engineering Entry)
- **Campus Ambassador** – IIT Delhi, IIT Roorkee, IIT Kanpur, IIIT Delhi
- **Outreach Coordinator** – The Uniques Community

PROFESSIONAL EXPERIENCE

Research Intern – Software Developer Dec 2025 – Jan 2026
Indian Institute of Technology (IIT) Roorkee

- Led development of **JalAI**, an AI-powered IoT water intelligence platform.
- Processed real-time sensor data to generate **AI-driven insights and predictive analytics**.
- Designed backend pipelines and intelligent alerting systems.
- Performed **model validation and performance evaluation** on live datasets.
- Built analytics dashboards for monitoring and decision support.
- Documented system workflows and technical architecture.

🏆 *Research Internship Completion Certificate Awarded*

Project Evaluator & Mentor Oct 2025 – Present
The Uniques Community

Frontend Web Developer Intern Jul 2024 – Aug 2024
CodeAlpha Tech Solutions

PROJECTS

JalAI – AI Water Intelligence Platform jalaitech.com

- AI-powered water monitoring system with real-time analytics and alerts.
- Built data pipelines for anomaly detection and automated reporting.
- Integrated IoT devices for live data collection and processing.
- Enabled data-driven decision support using analytics dashboards.
- **Tech Stack:** Next.js, Supabase, Data Analytics & Visualization

The Uniques Community Platform theuniques.in

- Developed a community-driven platform to enable peer-to-peer learning, collaboration, and student engagement.
- Built an AI-powered chatbot for career guidance and automated user interaction.
- Designed a data-driven analytics system to track user behavior and personalize experiences.
- Improved engagement through AI-driven recommendations and insights.
- **Tech Stack:** MERN Stack, REST APIs, MongoDB

InnoSign – Sign Language Interpreter InnoSign GitHub

- Built a real-time gesture-to-text & speech system using OpenCV and MediaPipe.
- Implemented rule-based gesture recognition using hand landmarks.
- Developed a Flask backend for live prediction via a web interface.
- Enhanced stability using temporal smoothing.
- **Tech Stack:** Python, Flask, OpenCV, MediaPipe, NumPy
